Solar Service & Panel Clean

Ask about our Home Energy Audit offer

\$210

inc GST for Credit Card Payments

Offer Available this month only.
15 point safety and service check, including panel clean.

GENERAL SITE INSPECTION

1. Visual inspection of all surrounds
2. Roof penetration is watertight
3. Roof drainage is adequate and no signs of water pooling near panels
4. Adequate system signage meets legal requirements
5. Check for corrosion or structure damage
6. Check for loose or exposed wiring

DETAILED PANEL INSPECTION

7. Inspect for defects (burn marks, discoloration, delamination or broken glass)
8. Excessive soiling from weather, animals or trees
9. Check module wiring is secure, not hanging loose or exposed
10. Inspect racking structure for rust, corrosion, sagging or missing parts
11. Inspect conduits for proper support
12. Check junction boxes, seals, clamping devices

DETAILED INVERTER INSPECTION

13. Check interior and exterior for any water, rodent or dust intrusion.
14. Record any logged system errors (if available)

SWITCHBOARD

15. Check labelling
